SKILLS

- **Languages:** C++, Python
- **Web:** HTML, CSS
- **Libraries:** NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn
- **Frameworks:** FastAPI, Streamlit, Django, Flask
- **Tools:** Git, GitHub, Postman, Linux, Docker
- **Core Concepts:** Data Structures and Algorithms, Data Preprocessing, Feature Engineering, Model Evaluation, REST APIs
- **Soft Skills:** Problem-Solving, Teamwork, Adaptability, Leadership

PROJECTS

- **Semantic Similarity Detection** | [GitHub](#) | [Live](#) Mar 2026 – May 2026
 - Faced accuracy limitations in standard cosine similarity models, which falsely categorized opposite-meaning sentences (e.g. "I love chocolate" vs. "I hate chocolate") as highly similar (~80%).
 - Goal was to design a context-aware matching system that integrates sentiment polarity to detect negation and adjust semantic similarity scores.
 - Developed a Python pipeline using Sentence Transformers (all-MiniLM-L6-v2) for 384-dimensional embeddings and VADER for sentiment analysis, deploying the service via a Flask REST API and a Streamlit frontend.
 - Achieved an 80% score correction (dropping similarity from 0.80 to 0.16) for opposite-sentiment inputs, ensuring high-accuracy semantic text comparisons.
 - **Tech:** Python, Sentence Transformers, VADER Sentiment Analysis, Scikit-learn, Flask, Streamlit, NumPy, REST APIs.
- **Expense Tracker** | [GitHub](#) | [Live](#) Jan 2026 – Mar 2026
 - Identified manual tracking friction and frequent Google authentication drops when users tried syncing personal finances to spreadsheets.
 - Designed a secure, responsive full-stack budget management dashboard utilizing a React Framework and Django.
 - Implemented Google OAuth2 with database-based PKCE to establish secure, stateless token refreshes and automatic Drive file creation.
 - Automated 100% of expense logging with real-time "Spend vs Remaining" budget calculations.
 - **Tech:** Python, React, Django, Neon PostgreSQL, Google Sheets API, Vercel/Render Deployment.
- **Student Dropout Predictor** | [GitHub](#) Oct 2025 – Jan 2026
 - Engineered a LightGBM model for student dropout prediction using feature engineering and hyperparameter tuning.
 - Implemented REST APIs using FastAPI, tested with Postman, and deployed via Docker with Streamlit frontend.
 - Designed an intuitive dashboard for visualizing student risk level and key predictive factors, enhancing accessibility for non-technical stakeholders.
 - Achieved 93% accuracy, with improved precision and recall, enabling early identification of at-risk students and supporting data-driven decision-making.
 - **Tech:** Python, Pandas, NumPy, Scikit-learn, FastAPI, Docker, Postman

TRAINING

- **Cipher School | A Guide to Machine Learning with Data Science** | [Certificate](#) May 2025 – Jul 2025
 - Gained hands-on experience in end-to-end data science workflows including data preprocessing, exploratory data analysis, feature engineering, and machine learning model building.
 - Utilized Python for data analysis, visualization, and extracting actionable insights using statistical techniques.
 - Applied various machine learning algorithms on real-world datasets, performing data cleaning, transformation, and feature selection for improved model performance.

CERTIFICATES

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [Infosys](#) Aug 2025
- Build Generative AI Apps and Solutions with No-Code Tools | [Infosys](#) Aug 2025
- A Guide to Machine Learning with Data Science | [Cipher School](#) Jun 2025

ACHIEVEMENTS

- Solved 170+ Coding Questions on LeetCode with 50+ days streak Jan 2026
- Participated in LPU University-Level Hackathon showcasing teamwork and problem-solving skills | [Certificate](#) Mar 2025
- Participated in Advitya in IIT Ropar built an RC car, demonstrating creativity and teamwork | [Certificate](#) Feb 2024

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology
Computer Science and Engineering | **CGPA: 7.73** Since Aug 2023
- **St Clare's Senior Secondary School** Agra, Uttar Pradesh
Intermediate | **Percentage: 67** Apr 2022 – Mar 2023
